

X-pert Line

Healthy pallet strapping

Secure load units ergonomic, easy and efficient

The Problem

Sick leave

5 days of sick leave per employee per year in every company in average, just caused by **back pain**.

Lack of motivation

Working in a **bent position** is stressful & painful for employees.

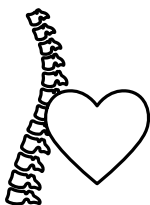

Time spent

Most of all companies need **two minutes** for the strapping process, ErgoStrap does it in 40 seconds.

The Solution

Ergonomic

No bending, low risk of injury, **prevent back problems!**

Enthuse your employees, they will be thankful.

Easy

Simple operation, quick training of your employees and suddenly strapping is fun.

Efficient

67% faster pallet strapping ensures more **efficient workflows.**

ErgoStrap

The original

Roll the **ErgoStrap** in front of the pallet. The ChainLance pulls the **strap** through under the pallet.

Up again on the rear side and over the pallet into the hand of the operator. The **ChainLance** retracts.

The **strap lifter** brings the 2nd strap end. The **sealing head** welds the strap securely.

Application Areas

- Pharmaceutical
- Packaging
- 3PL
- Manufacturing
- Automotive
- Military
